

Nestle Ice Cream Company

Nestle Ice Cream is the manufacturer and distributor of premium ice cream brands like Nestle and Haagen Dazs. Our Partner played a key role along with PwC and SAP America in implementing FI, SD, MM, PP and WM modules. Post implementation support is handled entirely by our partner. Our partner helped in configuring and designing the sales information system (SIS) for real-time, accurate, and user-friendly analysis and drill-down reporting. Our partner provided Business Analysis, Design and development services to support the merger of Nestle Ice-cream with Dreyers. Our partner also played a key role in hosting an independent SAP system for EskimoPie, a business partner of Dreyers/Nestle.

Projects handled at Nestle:

- » Played a Key role in the original implementation of SAP. Modules: SD, MM, WM, PP, FI. Design and development of custom solution for DSD (Direct to Store Delivery) - a unique business process used by Food and Beverage industry.
- » Data conversion from Legacy systems into SAP.
- » Implement SIS - Sales Information System for reporting and analysis
- » Design and develop several custom transactions, screens, Reports, interfaces using ABAP, ALE/IDOCs, EDI and E*Gate.
- » Post-implementation support and enhancements for all modules.
- » Implementing and tuning Lockbox (FI Accounts Receivables)
- » Support work - Reporting, data extractions, new business processes etc. during the merger of Dreyers and Nestle Ice-cream Company.
- » Support another SAP instance for Eskimo Pie - a business partner of Dreyers/Nestle Ice-Cream after the merger.

Design and develop automated solution for cash settlements between Eskimo Pie (Nestle's business partner whose SAP instance was being hosted and supported by Nestle) and Dreyers/Nestle.
